Lets go Native.

Frank. H. Rose,
Native Evergreens,
1020 Poplar St.,
Missoula, Montana.

Missoula, Montana.

New Business:

You may be one of those for whom I collect regularly. If so, I thank you and assure you that I will continue to merit any business you send me.

Perhaps you are receiving my list for the first time, or for some reason have not yet become interested in Mother Nature's offerings. To you, I make this appeal. Give our good native plants a trial. I make it my business to supply dealers with native material they can use from this region. What can I do for you?

To stimulate a more active use of Northwest Native plants, I sent you this list, in which I have priced plants within your reach in quantities for any purpose. Many Western varieties are adapted to your trade. I want you to know them and to list them to your public. Now, may I hear from you?

Frank H. Rose

HANG-OVERS

I am long on seed of Crataegus columbiana and C. Douglasii, Prunus demissa, Rhus trilobata, Sambucus glauca, Shepherdia argentea and Sorbus scopulina as well as on certain wild flower seeds. If you can make use of any of them, you will find me easy to trade with.

JUNIPER SEED

You as a nurseryman are interested in three things: first, the type of tree the seed will grow, second, the number of good seed per pound, and third, the price. Better write me now if you expect to want Juniper seed later.

TREES

Arrival in good condition guaranteed. Cash, please, if your credit is not established with us.

A REMINDER

There are no better plants than Mother Nature grows and no better handling than we give. I can find plants here listed when not in flower, so place your order now to be shipped when ready. Move alpine plants either early or dormant.

For seed or plants of varieties native to the Glacier and Yellowstone Park region, remember,

Frank H. Rose, Native Evergreens, Missoula, Montana.

DEALERS: Prices F.O.B. Single plants 20% off list.

Order 25 from the list below and pay $\frac{1}{4}$ the list price. Order 100 of any one variety, and pay $\frac{1}{5}$ the list price.

Quantity orders at these prices on a few items subject to confirmation. Quantity price still lower on a few.
